PROFESSIONAL DEVELOPMENT

Professional Development Course: All full-time MBA students enroll in a career development course during their first year. The course provides students with tools they need to execute a strategic career management plan, starting from the early stages of identifying target career paths all the way through interviews and negotiating job offers. The course consists of lectures, hands-on practical training, employer speakers, other career-related activities and trips.

FIELDWORK IN MANAGEMENT

The Fieldwork in Management, a required MBA internship, is a partnership between the student, the school, and the employer. The experiences gained from your fieldwork help you to build your resumé with MBA-level work experience and to apply knowledge gained from your MBA course work.
